

CarParts.com

Project description:

Carparts.com is a website where car parts stores can sell their parts and where car owners can buy these parts from them to fix their cars.

User Stories:

There will be two types of users: sellers and buyers, that's why there will be different stories depending on the user type

role	Action	Purpose
Buyer	create an account and log in	access my profile and make purchases
Buyer	browse car parts by category.	find the parts I need
Buyer	use filters	narrow down my search results
Buyer	view detailed information about a car part	know if it fits my vehicle before buying
Buyer	add products to a shopping cart	keep track of what I plan to purchase
Buyer	proceed to checkout and pay	complete my purchase

role	Action	Purpose
Seller	create an account and log in	manage my store and listings
Seller	create a store profile (name, logo, description)	present my business professionally
Seller	add new car parts for sale with images, price, and details	showcase my inventory
Seller	edit or delete my product listings	keep my listings up to date
